

# 2024 NHL PLAYOFF POOL RULES

## OVERVIEW

- The objective of **2024 NHL Playoff Pool** is to accumulate the most points based on the NHL Playoff Pool Scoring System. Points are accumulated during the 2024 NHL Stanley Cup Playoffs.
- Officepools.com stats website will be utilized with all participants receiving a pool invite upon payment of entry fee.

## ROSTER SELECTION (ACTIVE/RESERVE)

- Participants select a total of 20 players consisting of skaters only (forwards and defenseman) with a 16 player Active Roster and a 4 Player Reserve Roster. There are no restrictions on the number of players per position.
- Selections are made via a 'Playoff Pool Draft List' that includes all eligible NHL Players with approximately 70 top performing players that will require 'Draft Dollars' to be utilized to be selected. "Draft Dollar" values for the top performing players will be between \$4 to \$1 based on regular season performance.
- The list will also include all remaining eligible players for selection that will require no (\$0) 'Draft Dollars' to be selected.
- Each participant will have 20 'Draft Dollars' to be utilized for the Active Roster and 6 'Draft Dollars' to be utilized for the Reserve Rosters.
- Participants must submit the 'Excel' Playoff Pool Roster form to the commissioner and enter the identical roster in Officepools by **April 20, 2024 @ 12:00 PM EST**. If the roster deadline is missed your entry fee will be forfeited without refund.

## RESERVE TRANSACTIONS

- Participants will utilize Officepools.com for Reserve Roster activation requests **between playoff rounds**.
- Reserve transactions can occur with players from any position.
- Draft Dollar amounts DO NOT apply to transactions once the playoffs begin.
- Transaction requests only occur between rounds when the active player being sent to the Reserve has completed the playoff series and the Reserve player's NHL team plays its next playoff game of the following round.
- When transactions occur, the points accumulated by the player being sent to the reserve will remain for that roster position and the activated player's points will then count from that point forward.
